IMPORTANT INFORMATION

LOCATION. Our nursery is located in the heart of Arkansas, 40 miles from Nashville, one of the leading Peach centers of the entire United States, 35 miles south of Hot Springs and 25 miles west of Arkadelphia, Arkansas, on Highway No. 8. Our soil is adapted to growing fine nursery stock with a perfect root system. It is our aim to produce stock our customers will be proud of and at the very lowest price possible.

OUR GUARANTEE is that you must be satisfied or your money will be refunded for any items you purchase from us that are not what we represent them to be. All claims must be filed within ten days after shipment is received. We guarantee our trees to be true to name and will replace any stock that should prove otherwise. In no case whatsoever will we refund more than the purchase price of the stock.

WE PAY POSTAGE on all orders of \$2.00 or more. We ship all orders possible by parcel post; however, the larger orders will be shipped by express and will be express collect. To avoid delay and expense to you, send full remittance with your order. A 25% deposit is required on all C.O.D. orders. C.O.D. shipments are not sent postpaid.

DUE TO THE COST OF HANDLING we are unable to handle orders for less than \$2.00. We do our best to ship orders same day as received, but in some cases are unable to do so. All orders will be shipped as soon as possible after they are received.

OUR SHIPPING SEASON usually starts about November 1st, or as early as possible after stock is perfectly dormant. If frosts are early we should be able to handle any orders by December 1st. The season usually ends about May 15th. All orders will be shipped in rotation as they are received.

INSPECTION. All our stock is State and Federal inspected. In addition to these inspections we inspect each tree when it is dug from the nursery rows. Each bundle is carefully packed, labeled with an inspection certificate, so as to reach you disease free and in good condition.

FREE PLANTING GUIDE. With each order we will send a free helpful planting guide. Follow the instructions in this guide and you will be successful with all your plantings.

Yellow Delicious

Compare our prices with other nurseries and you will find we have the leading varieties and at a much cheaper price. Give us a trial order.

PEARS

BARTLETT. The favorite commercial Pear. Fruit very large, juicy, orange-yellow in color with a soft blush. It is quite uniform in shape. The favorite for shipping, canning and eating. The tree is a strong grower and produces very young. Hardy and a regular bearer. Ripens in September.

KIEFFER. The well known canning and preserving Pear. Fruit large, golden yellow often blushed by the sun. The most profitable to grow. Tree healthy, hardy and vigorous. Often the fruit will need to be thinned, so as not to over-bear. Ripens in September and October.

GARBER. The fruit is similar to the Kieffer and ripens in August. The tree is healthy and bears very heavily. It is ideal for eating and canning. Juicy and of excellent flavor.

LINCOLN. A very fine large, yellow blushed red, late summer Pear which bears young and very heavily. Fruit delicious for both canning and eating. Fine keeper. Bears when others fail. Fast grower. Extremely hardy.

DOUGLAS. One of the best early Pears, ripens the latter part of August. The youngest and heaviest tree to bear on our list. Two and three-year-old trees often produce a large amount of large, juicy, delicious fruit that is without a doubt the best eating Pear grown. It resists blight and is fast taking the lead as a commercial variety.

PRICES ON ALL PEAR TREES

	Each	Per 10

3 to 4 feet	1.00	9.00
4 to 6 feet (bearing size)	1.35	12.50

APRICOTS

EARLY GOLDEN. This is a large, deep golden yellow fruit that is delicious and unexcelled for canning and preserving. The fruit is juicy and ripens early in the season. Freestone variety and self-pollinating. Ideal for home garden as it bears young.

MOORPARK. Big, juicy, full flavored Apricot, just right for canning and drying. One of the finest for desserts. Ripens to a beautiful orange color, both skin and flesh. Very mild and sweet. Trees are very hardy and thrifty.

SUPERB. A hardy Apricot that was originated in Kansas. The fruit is large, of a rich orange color, with firm flesh and delicious flavor. The ripening period is long, extending over three weeks. One of the best hardy Apricots yet produced.

ROYAL. A fine, large French variety. Skin dull yellow with an orange cheek, very faintly tinged with red. Ripens latter part of July.

4 to 5 feet	1.25	10.00

GRAPES

CONCORD. It never fails. Grown successfully in every state in the Union. Large, bluish black Grape. The Grape's skin is very tender, but sufficiently firm to carry to a distant market. Sweet and juicy. Vines grow very fast and bear the second year. Ripens in August.

CAMPBELL EARLY. A large black Grape adapted to a wide area. Clusters and berries large and perfect. Flavor rich and sweet. Fine keeper. Hardy and productive. Ripens in July.

DELAWARE. The earliest red Grape. Ripens 10 days before the Concord, medium size fruit. Flesh is juicy and sweet, making it ideal for dessert and wine. Vines are hardy and productive. Very popular in the home vineyard.

MOORE'S EARLY. This variety ripens three weeks earlier than the Concord. Rich black in color, always loaded and always enjoyed. Taste is wonderful when picked from vines. Fruit very large. A vigorous grower and very productive.

FREDONIA. Big, compact clusters of black Grapes. Two weeks ahead of the Concord. Fredonia withstands the late frost. Has the most wonderful flavor. Heavy producer, fine shipper. A profit winner.

Plant Apples for Health Insurance

Productive Well Flavored Hardy Peaches

Free Planting Guide With Each Order

APPLES

YELLOW TRANSPARENT. Medium size, clear waxy white, becoming pale yellow when fully ripe. Flesh white, tender, juicy and of excellent flavor. Tree small but very hardy and productive. One of the best early Apples grown. Ripens in June.

RED JUNE. Medium size, bright, shiny red. Flesh tender and mild. Good quality and very productive. One of the best for cooking and pies. Ripens about June 20th.

LODI. A new variety of summer Apple that bears when very young, often in two or three years after planting. The fruit is large clear yellow with a slight red blush. A sure bearer. The tree is very vigorous and hardy. The fruit is similar to the Yellow Transparent only larger and a better shipper. The flesh is crisp and has an excellent flavor.

RED BIRD. One of the earliest red Apples. Flaming red, ripening in June. Fruit is large in size, very fine flavor and one of the best quality of any early red Apple. Ripens at a date when the market is best. The tree bears young, annually and an immense crop.

ANOKA. One of the youngest bearing trees we grow. Often bears the second year planted. Attractive red striped, excellent for eating and cooking. Often called the Old Folks Apple. Heavy bearer. For quick results try a few trees of this variety.

TWENTY OUNCE. The fruit is exceptionally large, juicy and crisp. Green with a slight blush and red stripe. Tree thrifty and very productive. The best Apple grown for home use. Brings top prices on any market.

RED JONATHAN. This is one of the best Apples for the market, being outlasted only by one other Apple. Jonathan cannot be praised too highly. It's solid red, good size, firm, juicy, and keeps well. The flesh is white and brittle with a flavor that cannot be beat. An excellent cooking and eating Apple. It is hard to equal for hardness and produces when others fail. Used extensively as a filler and pollinating variety. No commercial or home orchard is complete without this Apple.

YELLOW DELICIOUS. Our number one Apple. Large in size and golden yellow in color. Most delicious flavor. The best suited Apple for all types of soil and climate. The tree, while not a large growing type, is thrifty and extremely productive, coming into fruiting and producing an abundant crop while very young. This Apple should be picked at just the right time and placed in storage for late winter use. Ripens late September.

ROME BEAUTY. Large, round, mottled, striped in shades of red. Flavor and quality above the average. Appearance and size are its valuable points. Keeps well and a very good shipper. Always brings good prices.

RED DELICIOUS. One of the best red Apples. Extra large, dark red in color. Flesh fine grained, crisp, juicy, melting and delicious. Bears annually, great yielder and hangs well on tree. Bears well in almost every state in the Union. Splendid keeper and shipper. Tree very hardy and usually lives to a very old age.

STAYMAN WINESAP. An old favorite in any orchard. A fine winter Apple that is great for shipping and storing. The fruit is of medium size, firm, juicy, and red in color. The tree is thrifty, hardy and regular bearer when given the proper cross pollination.

MAMMOTH BLACK TWIG. Extra large in size, skin smooth, dark red and of excellent quality. Flesh firm and crisp. Tree vigorous, healthy and bears young.

CHERRY TREES

EARLY RICHMOND. A good old variety, perfectly hardy, uninjured by the most severe winters. One of the most valuable and popular varieties, used extensively by canners. Excellent for pies and preserves.

MONTMORENCY. Considered by fruit growers to be the finest sour Cherry grown. Fruit large, firm, ships perfectly. Bears very young, produces tremendous money making crops and is successful anywhere.

BLACK TARTARIAN. Here is the best, most dependable and successful of all sweet Cherries. You can always depend on this variety for a good crop. The sweet, mild flavor has won nationwide popularity with commercial and home growers.

Tasty and Juicy PEACHES

MAYFLOWER. Our earliest Peach. Dark red all over. Beautiful appearance. Blooms very late, missing all the late frosts. Fruit medium size, quality good. Ripens May 20th. Semi-cling.

EARLY ROSE. Beautiful red all over. Ripening June 10th when the demand for good Peaches is great and the prices high. Tree hardy and vigorous. Blooms late and seldom misses a crop. Clingstone.

DIXIE GEM. An early yellow-fleshed Peach, ripens just ahead of the Golden Jubilee. The fruit is medium size, bright yellow with red overcast. It is almost a freestone when fully ripe and is usually semi-cling at the shipping stage.

GOLDEN JUBILEE. This is one of the best early yellow Peaches. Ripens almost three weeks ahead of the Elberta and is almost as large. The fruit is yellow with a red blush, the flesh is yellow, firm and juicy. It is excellent for dessert or cooking. This is a fine variety for the home garden because of the high quality fruit and being so early. It is rated very high as a market Peach because of the resemblance to the famous Elberta. A good pollinizer. Freestone.

REDHAVEN. Freestone. Self-pollinating and very early. Ripens almost a month ahead of the Elberta. Its color is a brilliant red and yellow. Looks like it is ripe ten days before it is ready to pick. It bears a full crop when others fail.

IMPROVED EARLY ELBERTA. A great commercial Peach ripening about two weeks ahead of the Elberta. The first of its class to reach the market. A large, attractively colored, yellow-fleshed, freestone Peach. Commercial growers have welcomed this new Peach for the early harvest. Starts bearing the second year and seldom misses a crop. Where quality, size and beauty are desired, plant this variety.

HALEHAVEN. Ripens about two weeks before the Elberta. Large, beautifully colored, yellow-fleshed Peach. Excellent quality. A perfect freestone. This is one of the finest shipping and canning Peaches grown. Pollinizes other varieties.

FAIR BEAUTY. Ripens about 10 days before the Elberta. Large, yellow Peach with a beautiful red cheek. Can be hauled several hundred miles to market. It ripens at the time when highest prices are paid for Peaches. You won't go wrong on this variety. Semi-cling.

SULLIVAN'S EARLY ELBERTA. A new red sport of the famous Elberta. Ripens from 7 to 10 days ahead of its parent. Well adapted to any Peach growing section. The tree and fruit characteristics are found to be almost identical with the Elberta. It is large in size, extra fine quality and shows to be one of the best shippers. We have long needed a good commercial Peach to fill this ripening time. If your market demands quality and beauty, plant Sullivan's Early Elberta.

ELBERTA. This is the standard market Peach wherever you go. It is the most widely grown and the one to which others are compared. Large yellow with a rosy red blush on the sunny side, yellow flesh that is fine for eating or canning. The perfect shipper. Trees bear young, are hardy and self pollinating. Produces when others fail. There is no finer Peach grown. Freestone. Ripens middle of July.

GIANT HALE. Ripening approximately the same time as the Elberta. This Peach is extra large, round, highly colored with golden skin and flesh. Skin almost furzeless. For best results plant with other varieties for pollination. Freestone.

OLD FASHIONED RED INDIAN. A clingstone, very highly colored and red to the seed. It is unequalled for eating and pickling. The trees are unsurpassed for horticultural beauty. Fruit so large that it would not go in a pint cup. Do not confuse this Peach with the ordinary Indian Peach. A real thing of beauty. Ripens just after the Elberta.

BELLE OF GEORGIA. The leader of white Peaches adapted to its season. Adapted to commercial planting in all Peach growing areas. The fruit is very large, almost solid white with red cheek. Flesh white, highly flavored and firm. You can find but few orchards that do not have a few trees of this variety. Ripens July 25th.

FRANK. A delicious cling Peach that ripens two or three weeks after the Elberta is gone. This late variety usually brings the top market prices. Large, yellow with red covering. Good shipper. Proven a sure bearer.

WHITE ENGLISH. Nearly as large as the Hale. Skin creamy white, very seldom with any red; flesh pure white to the seed; fine for preserving. One of the finest eating Peaches. Ripens long after the Elberta is gone.

Shade and Ornamental Trees

FLOWERING PEACH. A small tree that one can find a place for in almost any garden, for it does not require a great deal of space. The branches are covered with rosettes of flowers in early spring. Hard pruning each year after the blooms are gone will produce greater profusion of flowers the following season. Double Red or White. 2 to 4 feet75c each

ALLRED PLUM. One of the most beautiful ornamental trees to produce delicious fruit. Produces the finest, sweet, juicy, red Plum you ever ate. No other Plum offers so much beauty and good eating during the season. Well named; foliage, stems, branches, fruit, even the seed is ALLRED. 2 to 4 feet\$1.00 each

CHINESE ELM. A native of China. Very rapid growing, extremely hardy. Leaves out early in the spring and leaves stay on longer in autumn. For a quick shade try Chinese Elm. 4 to 5 feet75c each

LOMBARDY POPLAR. A tall, slender tree. A striking feature in any landscape. Especially suited for tall screens and back-grounds, also along driveways. 50 feet high at maturity. 4 to 5 feet75c each

WEeping WILLOW. One of America's most beautiful shade trees. A gorgeous shade that invites you to a cool, restful spot during the hot summer evenings. A bank of Weeping Willows makes a lovely background for an outdoor living room. Plant wherever a graceful shade is needed. 4 to 5 feet90c each

BROADLEAF EVERGREENS

NANDINA. A beautiful and most popular evergreen with bright red berries in the winter. The leaves vary from green to a brilliant red in the winter. Highly recommended for fill-in planting about the house and grounds. 15 to 18 inches90c each

ABELIA. Dark, glossy green leaves are perfectly contrasted with the delicately perfumed, little white flowers produced from early to late. The arching branches are graceful, but the plant may be sheared to any shape and to any size you desire. 15 to 18 inches90c each

PAPER-SHELL PECANS

STUART. This variety is best suited for all sections of the country and all types of soil. It is a good producer and a very fast growing tree. The nut is large, well filled, sweet and brittle. One of the earliest ripening of all standard Pecans. Vigorous tree, seldom misses a crop.

WESTERN SCHLEY. A long, well shaped, beautiful nut. The shell is very thin and soft. The tree is healthy, strong grower, early and heavy producer.

BURKETT. This variety is one of the leading Pecans. Its flavor cannot be equaled. It is a regular producer of large, fat nuts that bring the top market prices. Plant Western Schley with Burkett for perfect pollination.

SUCCESS. The most popular eastern variety. The nut is large and oblong, with smooth, creamy kernels that release perfectly from the soft shell. The tree is a vigorous grower and resistant to scab.

GIANT MAHAN. The world's largest Pecan. The nuts look similar to the Schley but are twice as large. Mahan is also a true brittle Paper-Shell, and brings more money than any other Pecan grown. Mahan is a heavy producer and is adapted to all sections. This variety has become very popular due to the healthy, vigorous growing trees which make a beautiful shade specimen. Plant this variety for home or commercial planting.

PRICES ON MAHAN PECANS

	Each

THOMAS BLACK WALNUT

This giant, thin-shelled Black Walnut will grow and bear anywhere. Usually bears within one or two years after planting. Pick bushels of these big, delicious Walnuts from your own trees and store them for the winter. Fine for eating fresh or making delicious candies. The tree is a fast grower and will soon make a beautiful, valuable shade tree for your home. 2 to 3 feet\$1.95 each 3 to 4 feet2.35 each

The Glory of the Garden

WILL BLOOM THIS YEAR

Choice, 2-Year-Old Plants 59c each
Your Selection of 12 \$6.25, postpaid
Your Selection of 6 \$3.25, postpaid

ETOILE DE HOLLANDE. Truly the queen of red Roses. Blooms heavily, with pleasing fragrance.

POINSETTIA. A Rose of true Poinsettia color. The buds is ideal in form, long and pointed, which opens to a full petaled Rose.

RED AMERICAN BEAUTY. A most beautiful large, deep carmine-red Rose. One of America's most fragrant Roses.

GRENOBLE. Scarlet-crimson blooms on unusually long stems. Easily one of the best reds.

RED RADIANCE. A beautiful red. Blooms cover the bush almost continuously throughout the season. The number one Rose.

EDITOR McFARLAND. This lovely dark pink Rose has long stems and perfect blooms. One of the finest pink Roses.

BRIARCLIFF. Petals are deep rose-pink, lighter on the outer ones. Extra large in size and perfect in form.

PINK RADIANCE. This is one of the best, strong growing bushes we grow. Covered with big, double blossoms from early spring until late frost.

K. A. VICTORIA. We think this one of the best white Roses grown. Beautiful large white buds and blooms.

CALEDONIA. Good white Roses are not very plentiful, but here is a fine one. It has very double, pure white blooms on long stems.

GOLDEN DAWN. Sunflower-yellow blossoms turning to lemon. Well formed, sweetly fragrant.

SOEUR THERESE. A very fine yellow Rose. Buds are chrome-yellow with heavy carmine marks, while the flower is a rich daffodil-yellow.

GOLDEN OPHELIA. The center is golden yellow, with outer petals becoming somewhat lighter. Very pleasing, long, pointed form.

TALISMAN. Gorgeous colors in gold, apricot-yellow, orange, deep pink and old rose. Long, pointed buds. A great favorite.

PRESIDENT HERBERT HOOVER. Large, multi-colored flowers combining yellow, copper and flame tones. Long, heavy cutting stems on a well branching plant.

Briarcliff

Etoile de Hollande

EDITH NELLIE PERKINS. Delicate salmon-pink inside; outside deeper pink shaded gold.

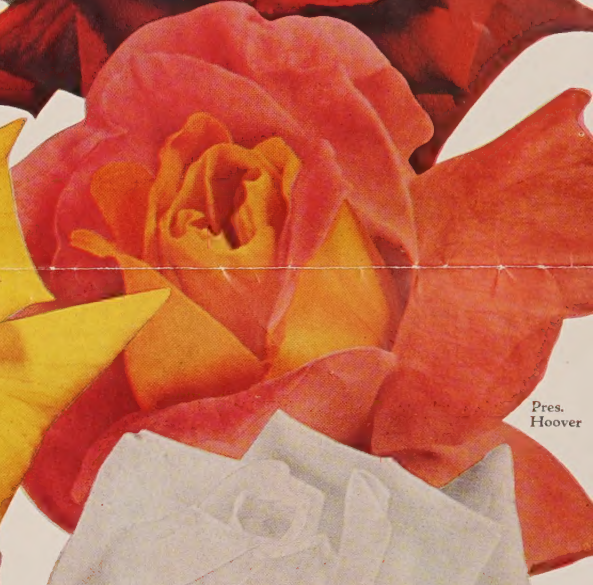

BETTY UPRICHARD. Pointed buds in two tones of pink, coppery on the outside of the petals. Very fragrant.

STRAWBERRIES

Spring Bearing Varieties

BLAKEMORE. Extra early, bright red berry favored for large-scale planting and long distance hauling. Always bears a big crop of firm, fine flavored fruit.

DUNLAP. The old standby. A midseason variety that grows on all types of soil and in all climates. A good producer and a fine berry.

AROMA. Glossy red, pleasing flavor, very productive and of great market value. Superior to most late varieties.

IMPROVED KLONDYKE. The perfect Strawberry for home or market. The berries are uniform in shape and size. Dark red in color and mild, delicious flavor. A strong productive bearer that sells for fancy prices.

Any of Above Varieties: 25 for 75c; 100 for \$2.00.

Everbearing Varieties

GEM. A large, sweet, juicy berry. Considered the "gem" of everbearers. Good quality, firm, glossy red. Good shipper, heavy producer. Fine for home garden.

Gem Prices: 25 for \$1.25; 100 for \$2.75.

NEW STREAMLINER. This excellent everbearer has everything; enormous size, rich red color, excellent flavor and a big producer. A wonderful variety for eating fresh, canning or freezing. Bears for two or three months same year planted.

New Streamliner Prices: 25 for \$1.75; 100 for \$4.95.

Improved Klondyke

YOUNGBERRIES

A successful new addition to the berry family, being a cross between the Loganberry and the Dewberry. A rich, dark wine color; very large. Easily grown. Extra productive.

Prices: 10 plants for \$1.00; 100 plants for \$7.50.

BOYSENBERRIES

NEW THORNLESS BOYSENBERRY. The newest development of the most delicious berries you have ever eaten. Huge crops of rich, tangy, juicy fruit borne on canes as smooth as velvet. The new berry ripens about ten days ahead of the older varieties. The flavor, a combination of Raspberry, Dewberry and Loganberry, all packed into fruits nearly two inches long, makes them excellent for pies, canning and desserts. By all means you must try a few of these fine berries.

Boysenberry Prices: \$1.25 per 10; \$10.00 per 100.

Boysenberry

BLACKBERRIES

EARLY HARVEST. One of the earliest Blackberries in cultivation. A compact, dwarf grower; fruit small and of good quality. Heavy bearer.

ELDORADO. The hardest and sweetest Blackberry. Berries are jet black in large clusters, very sweet and practically coreless. Keep a week or more after picking with quality unimpaired.

MCDONALD. Enormously productive, outyielding any other variety of Blackberry. Ripens two weeks ahead of any other variety. Can be sold for extra price before the other varieties hit the market.

Blackberry Prices: 80c per 10; \$6.00 per 100.

Early Harvest

DEWBERRIES

AUSTIN. Very large, black berry, highly flavored. For production it rivals all Dewberries.

LUCRETIA. Early black, extra large berry. A very fine berry for the market.

Dewberry Prices:
80c per 10; \$6.00 per 100.

RASPBERRIES

CUMBERLAND. Black. The largest and best midseason blackcap. Healthy, vigorous, productive, of large, firm berries, fine in quality. One of the hardest varieties.

LATHAM. Red. Undoubtedly the best looking red Raspberry on the market. Produces enormous crops of large, dark red berries of the finest quality.

ST. REGIS EVERBEARING. Red. Another of our fine red varieties. Bears fruit all summer until autumn.

Raspberry Prices: \$1.00 per 10; \$8.00 per 100.

St. Regis

Forsythia—Golden Bell

Flowering Shrubs

ALMOND, Pink Flowering. A beautiful small shrub, bearing an abundance of small, double, roselike flowers, before leaves appear in early spring.

Price: 18-24 in., 75c each; 2 for \$1.40.

ALTHEA, Rose of Sharon. Tall growing shrub, with beautiful double flowers that shower blooms from midsummer until frost. Unusually hardy. Your choice of Red or purple.

Price: 18-24 in., 55c each; 2 for \$1.00.

CRAPE MYRTLE. By far the best known, most popular and one of the finest flowering shrubs in the South. Blooms from midsummer until frost. Watermelon-red only.

Price: 18-24 in., 55c each; 2 for \$1.00.

Weigela

SPIREA Billiardi. Erect, sparsely twigged branches, crowned with dense spikes of rose-pink flowers from July to September.

Price: 18-24 in., 50c each; 2 for 90c.

SPIREA Van Houttei. Sometimes called the "Improved Bridal Wreath." A medium size shrub covered with pure white flowers in late April and May.

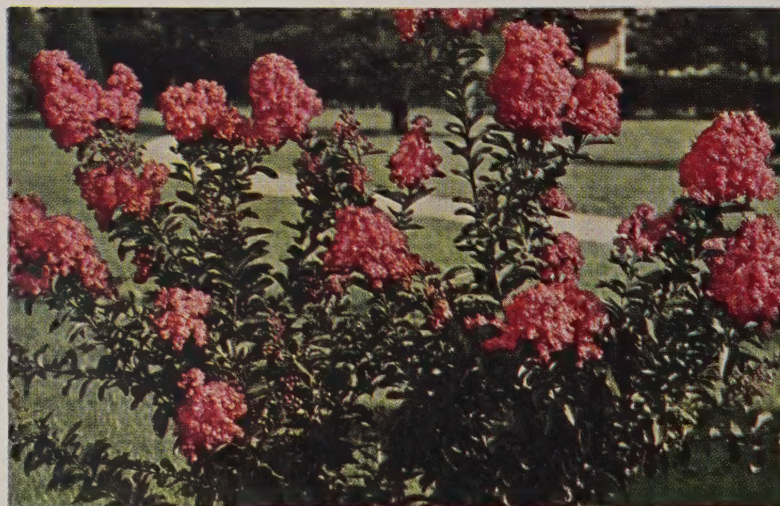

Price: 18-24 in., 50c each; 2 for 90c.

WEIGELA rosea. Rose-pink with a deeper shade in the throat, it is very free blooming. Blooms April and May.

Price: 18-24 in., 50c each; 2 for 90c.

WEIGELA, Eva Rathke. Most distinct variety, being later (June) and most conspicuous with deep carmine-red flowers.

Price: 18-24 in., 60c each; 2 for \$1.10.

Crape Myrtle

FORSYTHIA (Golden Bell). A showy mass of yellow flowers early in April, before the leaves appear. Both the grace and beauty give it a prominent place in all shrub plantings.

Price: 18-24 in., 50c each; 2 for 90c.

HYDRANGEA P. G. Pyramids of creamy white flowers, which are tinged with pink in late summer.

Price: 18-24 in., 80c ea.; 2 for \$1.50.

LILAC, French. Any description would fall short of the real beauty, both in form and fragrance, of these marvelous flowers. Very hardy and easily grown. Dark purple only.

Price: 18-24 in., 90c ea.; 2 for \$1.75.

MOCK ORANGE. A choice shrub, with a wealth of large, creamy white flowers that have the texture and fragrance of orange blossoms. Bloom in May and June.

Price: 18-24 in., 60c ea.; 2 for \$1.10.
